"We promise to never compromise the integrity of your fence, while delivering unbeatable and unsurpassed customer service. Simply put... we promise to always do the right thing."

The Osceola Fence Supply Difference

For many individuals this is the first purchase of a fence and the difference in fence estimates can be over whelming. We understand this is a large investment in your home, so let us show you what sets Osceola Fence Supply apart from the rest!

• **The table below refers to Wood fence**

Osceola Fence Supply VS. The Rest	Economy Install	Typical Install	Osceola Fence
American Fence Association: Is the contractor a member of the AFA and adheres to strict guidelines of business and ethical practices?	X	X	✓
Better Business Accredited: Is your fence being installed by a Better Business Accredited company with an excellent and proven track record?	X	X	✓
Experienced Installers: Will your fence be installed by a trained, experienced and highly professional installation team and not by unproven sub-contractors?	X	X	✓
Customer Service: Will the staff of your fence company be experienced, professional and courteous? Will they promise to keep you informed and give regular updates on the installation process?	X	X	✓
Property Boundaries Located: Will other fence companies locate all of your property boundaries?	X	X	✓
Irrigation Heads: Will other fence companies move irrigation heads free of charge that may need to be adjusted for installation?	X	X	✓
Concreted Post: Is your fence being installed with no less than 60lbs of concrete on ALL fence posts and extra on gate post?	X	✓	✓
Stronger Fence: Is your fence being constructed on site or "stick built" not in pre-assembled panels?	X	X	✓
Warranty: Does your fence come with a minimum of 5 year workmanship warranty and lifetime transferrable warranty on PVC and Aluminum fencing?	X	X	✓
Stronger Sections: Is your fence being constructed with 2x4 rails and 4x4 post not cheaper flimsy alternatives?	X	X	✓
Company Promise: Will other fence companies promise to never cut corners and give you the best possible fence they have to offer?	X	X	✓

"We promise to never compromise the integrity of your fence, while delivering unbeatable and unsurpassed customer service. Simply put... we promise to always do the right thing."

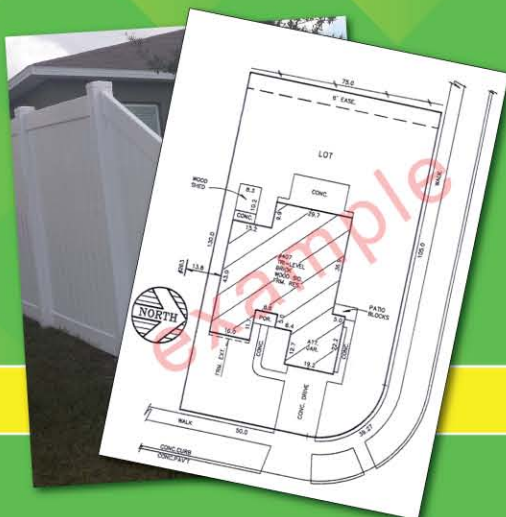

Understanding The Process

We understand this is a new process, so we want you to know what to expect.

- If you live in a community with a HOA you will need to get approval from the board before starting the fence. Most associations require three documents to be submitted: 1) the application, 2) a color picture of the type and style of the fence, and 3) a to-scale drawing on a copy of the property survey. Osceola Fence Supply can assist with this process if needed, although approval is homeowners responsibility.

Once a contract is signed, Osceola Fence will take it from here!

- Your fence is immediately put in to our scheduling system and the process starts.
- Our surveyor will be sent to the property to flag all property pins.
- The underground utility locating company will be notified to mark all underground utilities such as power, sewer, cable ect.
- Permits will be submitted to all applicable municipalities.
- An installation team will come to install your new fence.
- All inspections will be scheduled for your fence.
 - The local government building inspectors will be called out to approve and close out all permits.
 - Osceola Fence Supply Operations Manager will complete our internal inspections.
 - Your Salesman will do a final walk through with you and collect final payment.

"We promise to never compromise the integrity of your fence, while delivering unbeatable and unsurpassed customer service. Simply put... we promise to always do the right thing."
